Material Safety Data Sheet Product Name: Bay Leaf Oil

Section 1: Chemical Product and Company Identification  Product Name: Bay Leaf Oil CAS#: 8006-78-8   Botanical Name: Laurus nobilis Chemical Formula: Not available Section 2: Composition and Information on Ingredients  Composition: Bay Leaf Oil Percentage by Weight: 100% Section 3: Hazards Identification Potential Acute Health Effects: Non hazardous in case of skin contact, irritant in case of eye contact (irritant) of ingestion, of inhalation. Potential Chronic Health Effects: Not Available:   CARCINOGENIC EFFECTS: Not available. Section 4: Hazards Identification  Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed. Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used. Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.  Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non-flammable in presence of shocks. FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
CAS#: 8006-78-8   Botanical Name: Laurus nobilis Chemical Formula: Not available  Section 2: Composition and Information on Ingredients  Composition: Bay Leaf Oil Percentage by Weight: 100%  Section 3: Hazards Identification  Potential Acute Health Effects: Non hazardous in case of skin contact, irritant in case of eye contact (irritant) of ingestion, of inhalation.  Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.  Section 4: Hazards Identification  Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed. Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used. Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.  Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks.  FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Section 2: Composition and Information on Ingredients  Composition: Bay Leaf Oil Percentage by Weight: 100%  Section 3: Hazards Identification  Potential Acute Health Effects: Non hazardous in case of skin contact, irritant in case of eye contact (irritant) of ingestion, of inhalation. Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.  Section 4: Hazards Identification  Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed. Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if symptoms appear. Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Flash Points: CLOSED CUP: 90°C Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non-flammable in presence of shocks. FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Composition: Bay Leaf Oil Percentage by Weight: 100%  Section 3:Hazards Identification  Potential Acute Health Effects: Non hazardous in case of skin contact, irritant in case of eye contact (irritant) of ingestion, of inhalation. Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.  Section 4: Hazards Identification  Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed. Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used. Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear. Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks. FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Section 3:Hazards Identification  Potential Acute Health Effects: Non hazardous in case of skin contact, irritant in case of eye contact (irritant) of ingestion, of inhalation. Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.  Section 4: Hazards Identification  Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed. Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used. Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear. Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks. FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Section 3:Hazards Identfication  Potential Acute Health Effects: Non hazardous in case of skin contact, irritant in case of eye contact (irritant) of ingestion, of inhalation. Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.  Section 4: Hazards Identification  Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed. Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used. Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear. Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks. FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Potential Acute Health Effects: Non hazardous in case of skin contact, irritant in case of eye contact (irritant) of ingestion, of inhalation.  Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.  Section 4: Hazards Identification  Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed. Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used.  Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.  Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks.  FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.      Section 4: Hazards Identification      Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed.     Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used.     Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.     Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.      Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks.  FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Potential Chronic Health Effects: Not Available.   CARCINOGENIC EFFECTS: Not available.      Section 4: Hazards Identification      Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed.     Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used.     Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.     Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.      Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks.  FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Section 4: Hazards Identification  • Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if needed.  Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used.  • Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.  • Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Section 5: Fire and Explosion Data  • Flash Points: CLOSED CUP: 90°C  • Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks.  • FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  • Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Get medical attention if irritation develops. Cold water may be used.  Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.  Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.  Section 5: Fire and Explosion Data  Flash Points: CLOSED CUP: 90°C  Fire Hazards: Flammable in presence of open flames and sparks, of heat. Non- flammable in presence of shocks.  FIRE: Use DRY chemical powder / Sand. LARGE FIRE: Use foam, Water spray or Fog. Flammability of the Product: Not Flammable  Section 6: Accidental Release Measures  Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
<ul> <li>Inhalation: If inhaled, remove to fresh air. Get medical attention if any symptoms appear.</li> <li>Ingestion: Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Get medical attention if symptoms appear.</li> <li>Section 5: Fire and Explosion Data</li> <li>Flash Points: CLOSED CUP: 90°C</li> <li>Fire Hazards: Flammable in presence of open flames and sparks, of heat. Section 6: Accidental Release Measures  • Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Spill: Dilute with Washing Soap & Water and Regular mop up, or absorb with an inert dry material and place in an appropriate Waste Disposal Container.
Continue 7, Hamilton and Change
Section 7: Handling and Storage
Precautions: Keep away from Heat & from sources of ignition. Ground all equipment containing material. Do not ingest. Keep Away From Eyes.
Storage: Store in a segregated and approved area. Keep container in a cool, well-ventilated area. Away from heat & spark Keep tightly closed container.
Section 8: Exposure Controls/Personal Protection
Engineering Controls: Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective
threshold limit value. Ensure that eyewash stations and safety showers are proximal to the work-station location.
Personal Protection: Splash goggles. Lab coat. Vapor respirator. Be sure to use an approved/certified respirator or equivalent gloves.
Section 9: Physical and Chemical Properties
Physical state and appearance: Liquid.   Odor: strong Characteristic odor.
Taste: Bitter. (Slight.)   Boiling Point: >180°C   Melting Point: -N/A
Section 10: Stability and Reactivity Data
Stability: The product is Stable.   Corrosivity: Non-corrosive in presence of glass.   Special Remarks on Reactivity: Not Reactive.
Special Remarks on Corrosivity: Not available.   Polymerization: No.
Section 11: Toxicological Information
Routes of Entry: Ingestion.   Toxicity to Animals: LD50: Not available. LC50: Not available.
<ul> <li>Toxic Effects on Humans: Hazardous in case of ingestion. Non hazardous in case of skin contact (irritant), of inhalation.</li> </ul>
·
Section 12: Ecological Information
Ecotoxicity: Not available.   BOD5 and COD: Not available.   Products of Biodegradation: Product is Bio-Degradable  Taxisity of the Braducts of Biodegradation. The products of degradation are not toxic.  The product of the Braducts of Biodegradation. The products of degradation are not toxic.  The product of the Braducts of Biodegradation. The products of degradation are not toxic.  The product of the Braducts of Biodegradation. The products of the gradation are not toxic.
Toxicity of the Products of Biodegradation: The products of degradation are non toxic.
Section 13: Disposal Considerations
Waste Disposal: Keep away from drains, surface and ground water.     Dispose according to recognized method of chemical waste disposal.
Section 14: Transport Information
<ul> <li>DOT Classification: Not a DOT controlled material United States (USA), As pere iata regulations</li> </ul>
Identification: Not applicable.
Special Provisions for transport: Not applicable.
The Material Safety Data Sheet (MSDS) should accompany all shipments for reference in the event of spillage or accidental release. Transportation and
shipping of this product is not restricted. It has no known, significant hazards requiring special packaging or labeling for air, maritime, or ground transport
purposes.
Section 15: Other Regulatory Information
WHMIS (Canada): N/A , HMIS (USA): Health: 1   Flammability: 1   Reactivity: 0 SARA 302/ SARA 313: None
Section 16: Other Information

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and ARAMACS assume no liability resulting from its use.
